About Us

We are dedicated to enriching the lives of individuals with developmental disabilities throughout Ohio by providing the best quality direct-support professionals and technology solutions.

We encourage and support both individuals and staff to develop meaningful relationships to live happy, healthy lives, and to develop independence, purposeful and meaningful experiences along with fully integrating people into their community as they choose.

Adult Day Support

If an individual is not able to obtain services, equipment, or the supplies necessary through Ohio's Medical plan, they will be able to have access to them through this program. Our goal is to assist in decreasing the need for other required Medicaid services while also increasing the safety of our clients while they are at home, simultaneously expanding their inclusion in the community.

Services are designed to provide social and some health services to adults who need supervised care in a safe place outside the home during the day. They also afford caregivers respite from the demanding responsibilities of care giving. Adult day services are an essential source of support for family caregivers.

Services are available in a wide variety of settings to offer individuals a variety of opportunities to meet social, recreational, and emotional needs. Adult day services centers provide an interactive, safe, and secure environment.

We have four locations offering Adult Day Support. The MACC in Fremont, Ohio, The Bruce Center located in Bellevue, Ohio, Memory Hall Clyde, Ohio, and The Landing in Port Clinton, Ohio.
